

Browse the storefront

The home page opens on Special Offers. Use the category bar to browse, then choose a product to see its details.

Steps

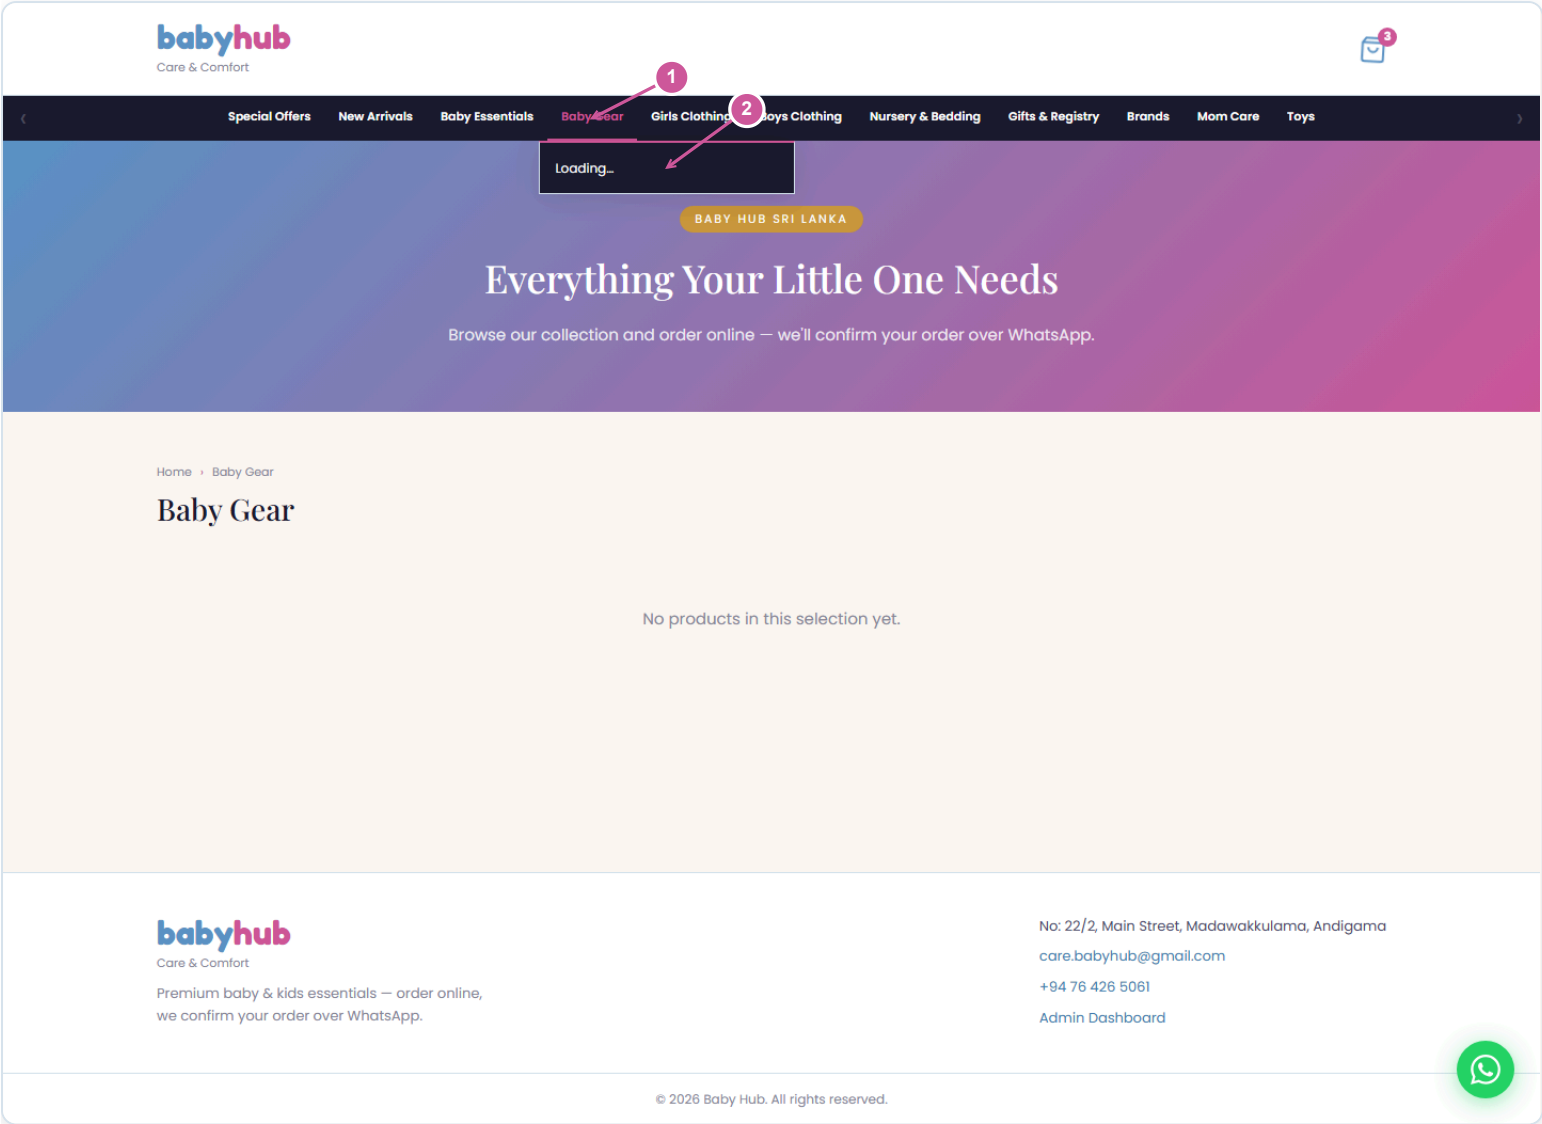

1. Use the category bar to browse departments. On smaller screens, use the < and > arrows to move through the menu.
2. Select a product card to open the product page. The product category and subcategory appear above its name.
3. Use the cart icon in the header to review items at any time.

Screenshot callouts

- 1 Browse product categories
- 2 Open a product
- 3 Open your cart

Browse by category

Hover over a category on desktop or tap it on a touch screen to reveal its subcategories.

Steps

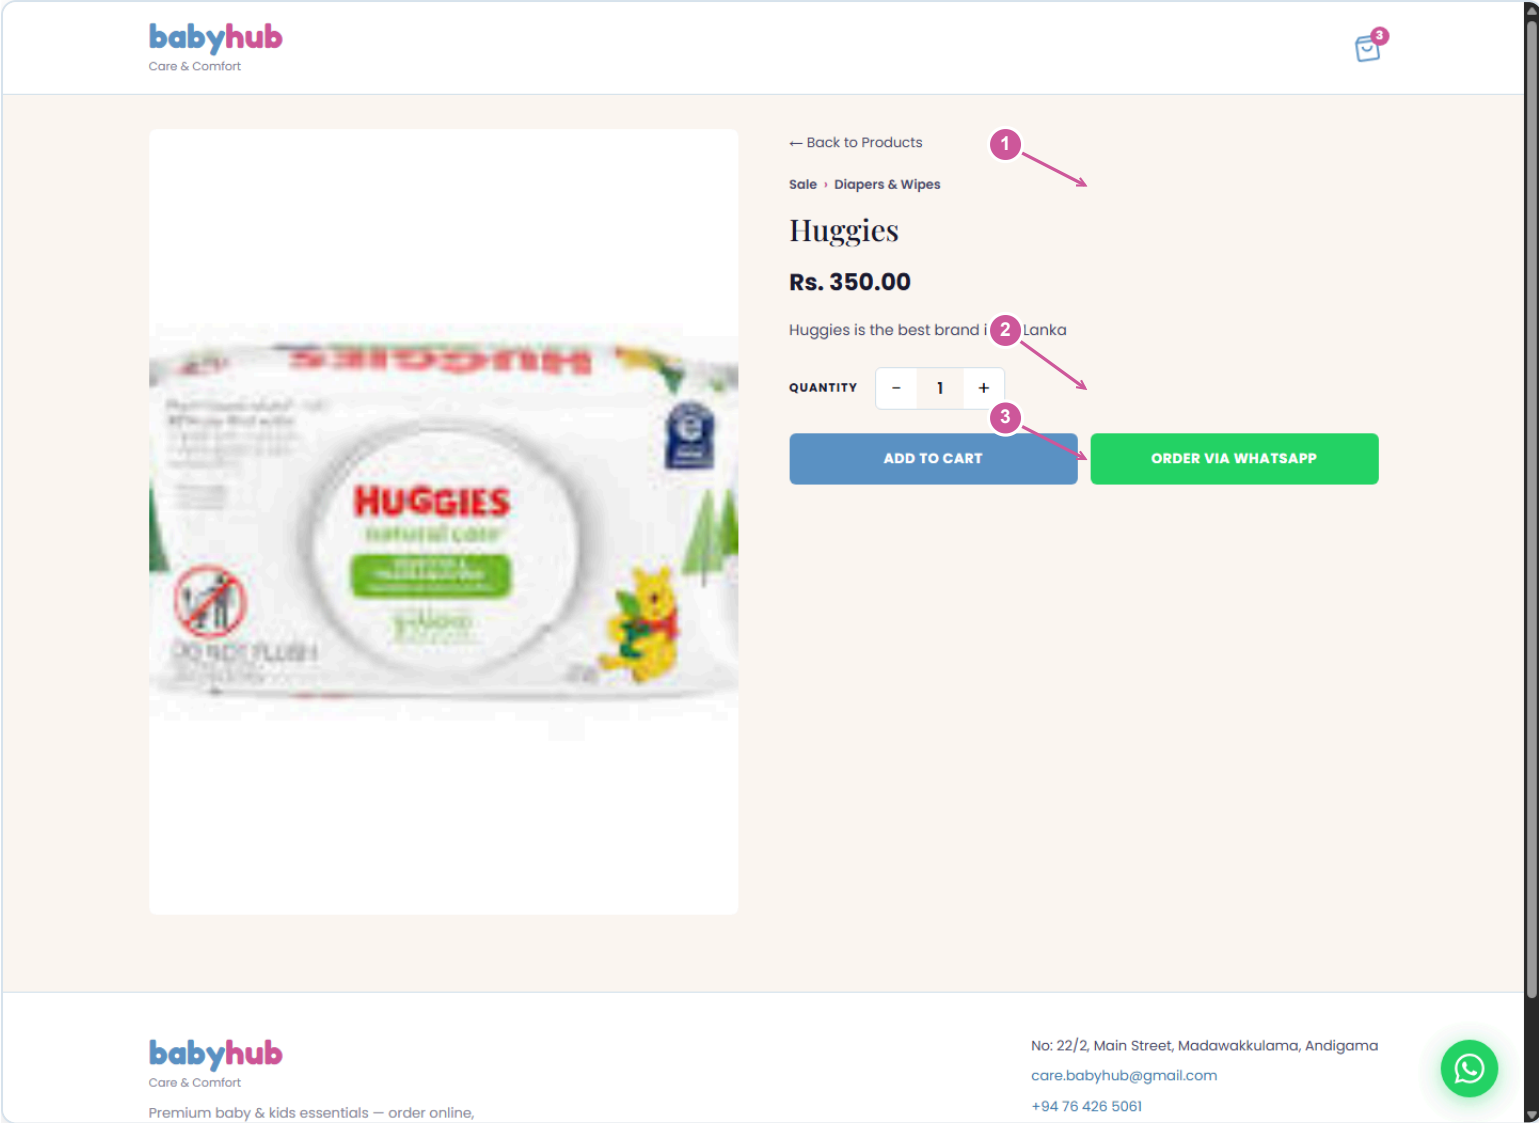

1. Choose a category in the top menu.
2. Choose a subcategory in the list below it to filter products.
3. To change the selection, choose another category and subcategory.

Screenshot callouts

- 1 Choose a category
- 2 Choose a subcategory

Review a product

The product page shows its category, subcategory, description, price, and purchase actions.

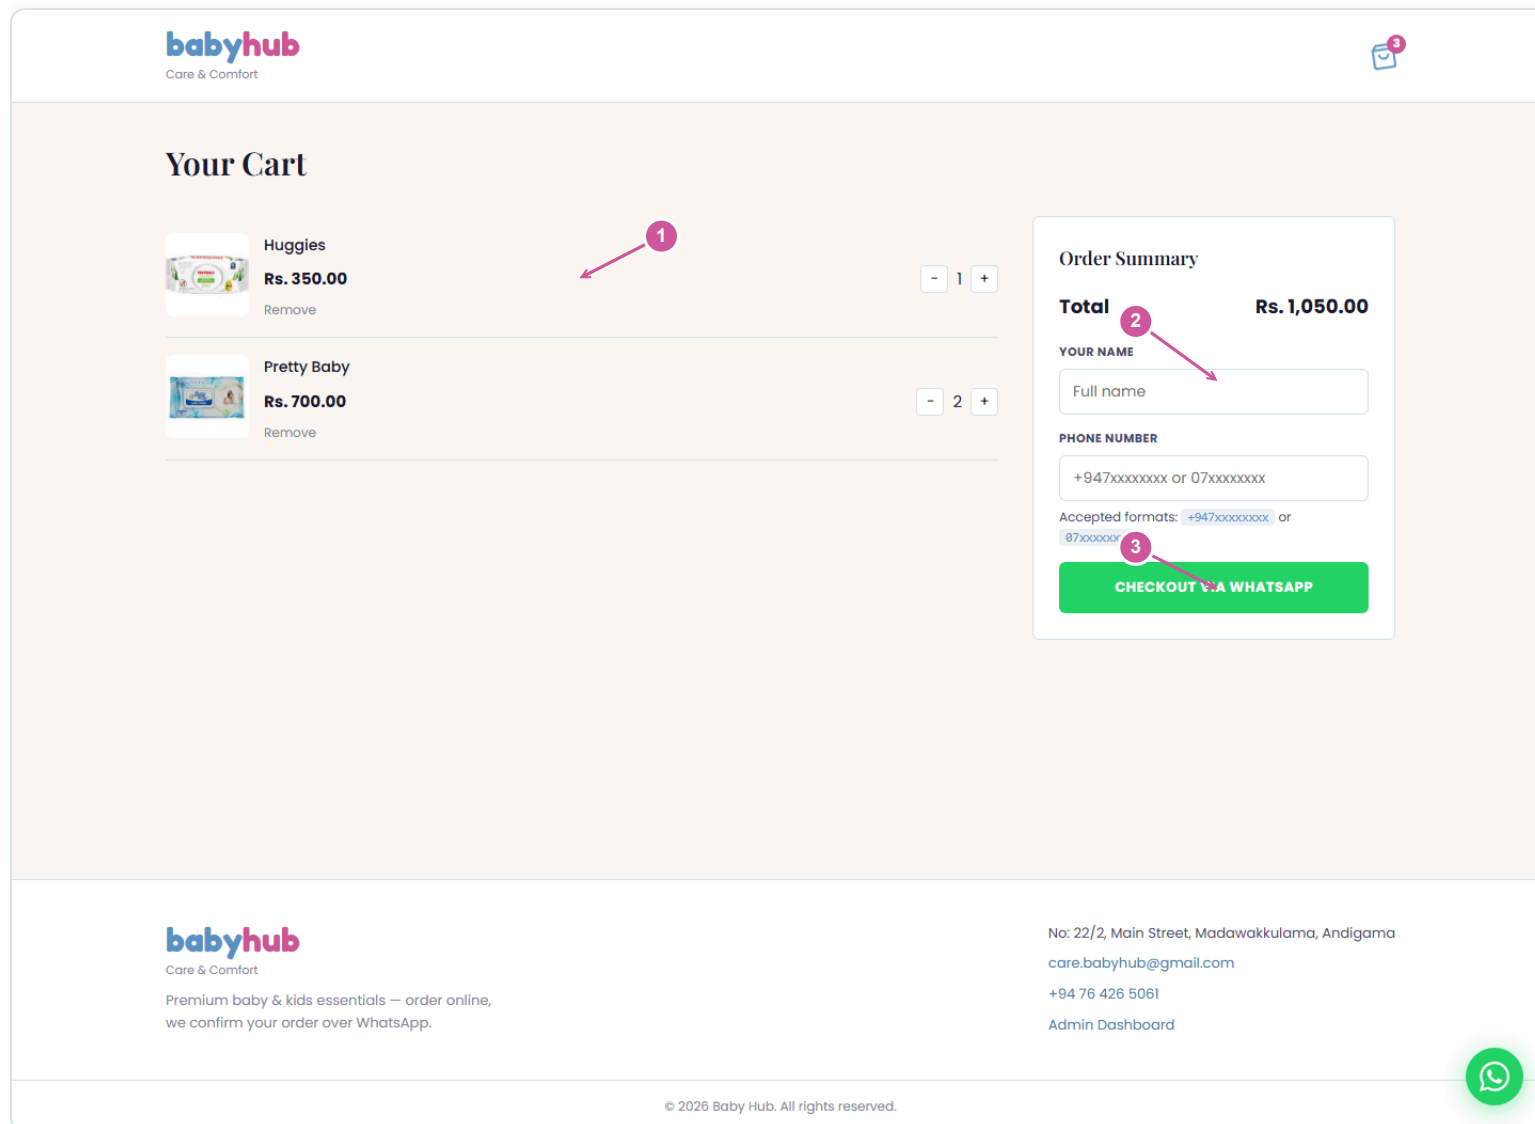

Steps

1. Check the category breadcrumb and product information.
2. Adjust the quantity with – and +.
3. Choose Add to Cart to continue shopping, or Order via WhatsApp to proceed to the cart checkout.

Screenshot callouts

- 1 Review category and subcategory
- 2 Set quantity
- 3 Add to cart or order through WhatsApp

Checkout saves the order and opens WhatsApp with the order details ready to send.

1. Use +/- to adjust quantity or Remove to take an item out of the cart.
2. Enter your name and phone number.
Customer numbers may use +947xxxxxxx or 07xxxxxxx.
3. Choose Checkout via WhatsApp. The order is saved first, then WhatsApp opens with the order reference and item list.

- 1 Change quantity or remove an item
- 2 Enter customer details
- 3 Save and open WhatsApp

Admin Dashboard

Premium baby & kids essentials – order online,
we confirm your order over WhatsApp.

Steps

1. Choose + New Product to add an item. Use Edit to change an existing product or Delete to remove one.
2. The + control at the far left expands a row to show its description; – collapses it.
3. The table can scroll horizontally on narrower screens.

Screenshot callouts

- 1 Edit the WhatsApp contact number
- 2 Create a product
- 3 Expand product description
- 4 Review product category data

The contact number is read-only until the pencil icon is selected.

Illustrative admin data

Steps

1. Select the pencil icon on the Products page.
2. Enter a number in +947xxxxxxx format only.
3. Choose Save Phone Number to apply the change, or Cancel to restore the saved value.

Screenshot callouts

- 1 Edit contact phone
- 2 Save or cancel the change

Add or edit a product

The same form is used when creating a product or editing an existing product.

SAVECancel

Steps

1. Enter the product name and description.
2. Select a product category, then its matching subcategory.
3. Enter the price and choose an image file if available.
4. Choose Save. To edit an item, return to Products and choose Edit on its row.

Screenshot callouts

- 1 Enter product name and description
- 2 Select category and subcategory
- 3 Set price and image
- 4 Save the product

Illustrative admin data

Orders are grouped by status so the team can review each stage of fulfillment.

Steps

1. Use Orders, Shipped, Returned, and Refund tabs to switch between statuses.
2. Select + to inspect order line items; – closes the expanded details.
3. Pending orders can be edited, deleted, or marked shipped. Shipped orders support delivery tracking; returned orders support receipt, reshipment, or refund actions.
4. Confirm status-changing actions carefully; some actions cannot be undone.

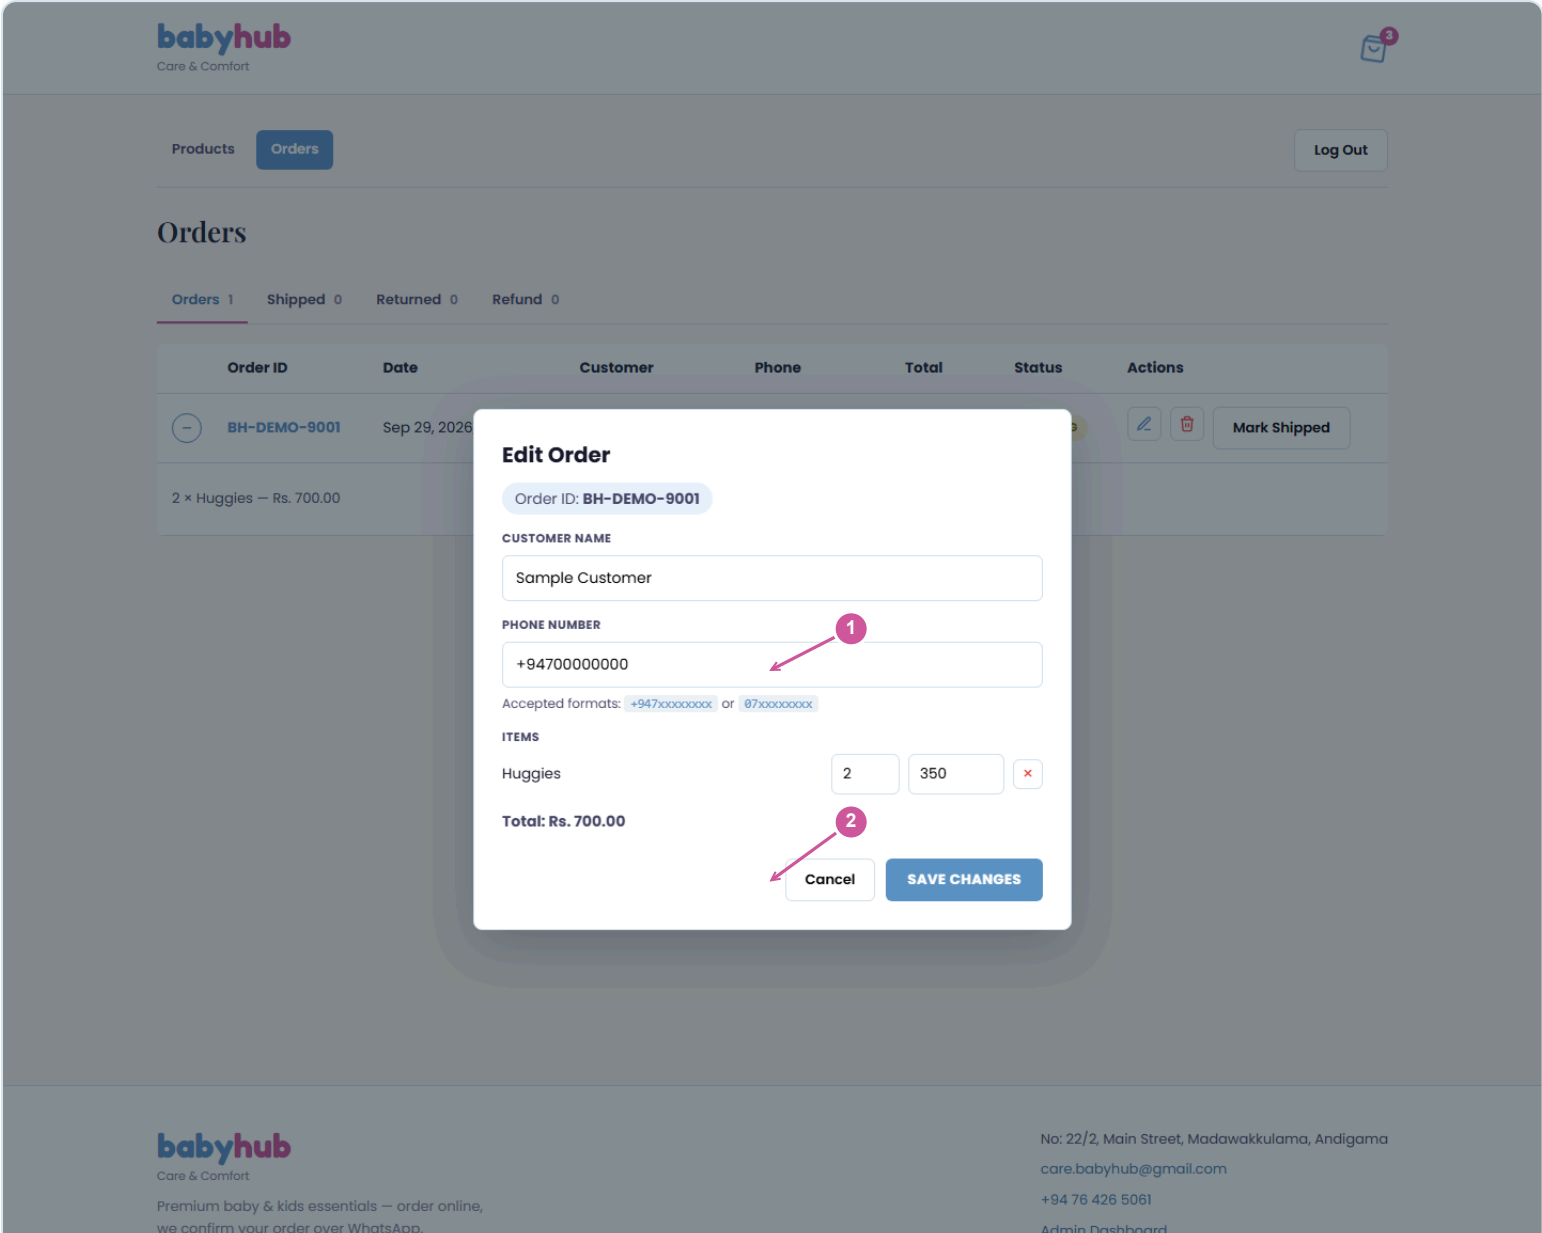

Screenshot callouts

- 1 Switch between order statuses
- 2 Expand order items
- 3 Open order actions

Edit order details

The order editor lets an admin correct customer details and line items before saving.

Illustrative admin data

Steps

1. Review the order reference and update the customer name or phone number if needed.
2. Adjust item quantities/prices or remove a line item. The total is recalculated from the items.
3. Choose Save Changes to apply the update, or Cancel to close without saving.

Screenshot callouts

- 1 Edit customer and line-item details
- 2 Save or cancel changes
